

Full-stack developer with 10 years of experience in modern technologies such as Next.js and Angular, with a strong interest in UX/UI design and experience as a web accessibility consultant.

RELEVANT WORK EXPERIENCE

Surge AI – Remote

Product Operations Specialist

📅 Jan 2024 - April 2025

- Design and manage large-scale data collection projects to train LLMs, translating client guidelines into clear annotation instructions.
- Build Python tools to quickly analyze annotated data, spot low-quality entries, and identify top and underperforming annotators.

Collaf Designs – Remote (Freelance, Contract)

Full-Stack Developer, UX/UI Designer

📅 Jan 2024 - Apr 2024

- Designed and developed a Next.js 14 transactional web app, enabling customers to place and customize orders online.
- Implemented authentication with Auth0, and designed a PostgreSQL database to persist orders.

Desjardins – Remote

Developer analyst, Full-Stack Developer

📅 2020 - 2023

- Architected, developed, and documented multiple accessible SPAs using micro-frontend architecture with Angular 14.
- Led the integration of automated end-to-end Cucumber tests into a Java Spring Boot project, streamlining workflows and reducing manual testing efforts.
- Spearheaded accessibility initiatives to ensure compliance with WCAG 2.0 AA standards.

Full-Stack Developer

📅 2018 - 2020

- Modernized a large retirement-planning web application by migrating from legacy technology to ASP.Net MVC with AngularJS.
- Developed microservices and batch services in C# and VB.NET to support the web application and perform CRUD operations on an SQL Server database.

Novaxis

Full-Stack Developer

📅 2015 - 2016

- Developed a website editor with an autosave feature, built with ASP.Net (C#) and jQuery, and used by over 10,000 clients.
- Helped develop e-commerce and blog plugins that clients could integrate into their website.

EDUCATION

Cégep de Lévis-Lauzon (Lévis, 2014)

Associate's degree in Computer science.
